Aboutus

The state level leaders associated with the progressive democratic student and youth movement decided together to improve the conditions of the downtrodden people of the society. Through these young people thoughts they decided to should constitute an organization to long time work. in this regard they formed an organization namely koshish.

Koshish, is a Non-Governmental & non profitable organization which shall be working for social, political and economic empowerment of poor people, in other words koshish has been working for the upliftment of the downtrodden people of the society since its inception.

Regular worked on the issues of Fundamental rights of people, protection of human rights, unorganized sector worker issues, gender issues and right to food, grass root delivery system and environment conservation in rural and urban areas as well as unity, equality and sovereignty for our country.

Koshish registered as a charitable trust on 4th August 1997.

Koshish coordinates with various organizational networks who are working on different issues as fundamental rights, human rights land rights, housing rights, comprehensive social security rights for informal sector labour, welfare schemes, livelihood, legal rights, and educational rights etc.

KOSHISH has campaigned and lobbied on issues such as right to information (RTI), MNREGA, and Women's & Children rights, Panchayati Raj system, Right to education(RTE), Right to food(RTF), Right to health (RTH), Disaster Risk Reduction (DRR) etc.

KOSHISH imparts training to activists and members of NGOs and INGOs, officials and others on issues relating to Right based schemes, homeless, Gender, local governance and justice system, risk reduction environment etc.

KOSHISH's strength lies in its sustained performance regarding project Related activities, social issues based programmes, various awareness campaigns, advocacy, sensitization and so on.

Organization's responsibilities are to take initiatives for protection and conservation of environment, water-bodies, forest, biodiversity and wild life in edition according to *Article 48a, Directive Principle of the State Policy of the Indian Constitution; the State shall endeavour to protect and improve the environment and to safeguard the forests and wild life of the country.*

Initiatives are undertaken for achieving balance between footprint and handprint in regard to sustainable development. We work to provide immediate relief to victims of natural and human induced disasters.

We also try to ascertain the causes of calamities and assess its impact on environment, individuals, society and economy.

Organization's responsibilities are to take initiatives for protection and Initiatives are undertaken for achieving balance between footprint and handprint in

regard to sustainable development. We work to provide immediate relief to victims of natural and human induced disasters.

We also try to ascertain the causes of calamities and assess its impact on environment, individuals, society and economy.

Social groups are formed for engaging communities in planning and executing DRR (Disaster Risk Reduction) strategies.

In addition to all these issues, we have taken continuous initiatives against women's violence, domestic violence and gender-*unequality* towards women and girls vis-à-vis men or boys.

Advocacy with the government is undertaken for Pro-farmers (Small and Marginal farmers), share croppers, agricultural labours and controlling the input cost and increasing minimum support price (MSP). The organization works for influencing the government for using modern technology with preservation of land, soil and environment. It advocates with the government for preservation of traditional knowledge of the agriculture and conducts study on effect of climate change on agriculture.

The organization works to enable youth to develop themselves to their potentialities and advocates with the government for youth centred policies. It undertakes research study on aspiration and problems of youth. The organization strives to inculcate ideals of peace, communal harmony and community living and encourage youth to participate in value based politics and constructive mode of social development. In this regard *United Nations has long recognized that the imagination, ideals and energies of young people are vital for the continuing development of the societies in which they live.*

In the light of the Supreme Court orders in respect to Right based schemes, 'Koshish' supports Advisor to Commissioners of the Supreme Court.

Advisor to Commissioners of the Supreme Court works as a bridge between the implementing authorities, Commissioners to the Supreme Court, beneficiaries and various citizens' groups. As result advisor office conducts study on the status of implementation of schemes and sent regular updates and periodic reports to the Commissioners. For an effective, monitoring and redressal system, it organized meetings with ministers, officials, social groups and media.

350 people were trained as paralegals on various law and Constitutional Rights through training which were provided by koshish charitable.

Around 1000 Panchayati Raj Institutions members becomes trained on laws relating to Panchayati Raj, gender related laws, Dalit Rights and constitutional rights.

Regarding on human rights issue organization also taken initiatives in formation of State human right commission and in this regard a PIL also admitted in the high court, on the basis of PIL state human rights commission was formed at the high court order on PIL.

Regarding RTI 1800 Suchana Mitra (Rural Communicator Cadre) were trained in Bihar for strengthen and to create awareness among common people. Koshish jointly organized a campaign on the issue of State Information Commission after that State Information Commission was formed at the order of the High Court on PIL. RTI Stall was setup in all blocks to make people aware RTI and the process of filing complaints.

On the issue of Right to Food within Right to Food Campaign, Bihar was successful in creating collective opinion to pressurise political parties to include their demands in their election manifestos and make it a political agenda.

Introduction of social audits after our initiatives, regular advocacy by Right to Food Campaign Social Audit of AWCs was initiated by Government.

Social audit conducted in association with Rural Department of Govt. of Bihar, in 200 panchayats.

36 selected village-based vigilance committees were formed which were monitoring Socio-economic Right based and development based schemes.

As result awareness level of the community had been increased on the provisions of schemes through regular engagement, resulting into decline in starvation deaths. To improve delivery system at grassroots through effective coordination of Advisor's office with concerned officials at Block, district and state.

Acceptance of important recommendations like inclusion of SC/ST, single woman, homeless, migratory population in the list of beneficiaries under NFSA, creation of separate court for hearing of starvation cases, "Shatabdi Ann-Kalash Yojana" etc. of the Advisor office by the government has resulted into accountability and transparency in government department.

Koshish has Network base of 250 organisations in 38 districts of Bihar state through Right to Food Network.

Right to Food Campaign, Bihar was asked by the Hon'ble Governor of Bihar to develop a Standard Operating Procedure (Sop) for quality control of the cooking process (Kitchen) for MDM and Anganwadi after Mashrak incident in Saran district.

The organization has reached this stage since its inception by working on the above mentioned issues in positive direction.

In the past year, we have been working continuously in the time of crisis arising out of COVID-19 and before on many kinds of disaster.

Pandemic disaster RESPONSE

We witness of 2019, have experience of flood disaster in Patna which caused major parts of the city in under flood, Heavy rains damaged houses and affected normal living condition. Often slum area are left behind and ignored as they do not become part of urban planning. People living in slum areas are generally migrated labours, which live upon daily wages. People from this area just now out few months ago from flood disaster and again let's gets engulfed by pandemic since 2020 to till last quarter's year of the 2021.

In this regard we can say that people of Patna are fighting with disaster since 2019 to till date and may be continue next year.

Due to effect of COVID-19 entire world were facing situation of fear. Circumstances of first phase pandemic situation locked down started in our country too. These reason Government announced country wide complete lockdown, as result mostly occupational centers had been closed. So this reason lot of working people and his /her families were worried to survival their life and them searching at list food support from every institution and individuals.

in this situation koshish charitable trust requesting to likeminded several NGO's, civil society's organization and individuals to come on this platform to serve the needy families & individuals which are not getting proper health treatment, medicine, oxygen cylinder, food, water, masks, sanitizers. After this initiative several organization and individuals responded positively.

Koshish had been started immediate relief work for affected slum dwellers of Patna and within different districts, firstly we conducted a rapid assessment study to understand the living condition of people in slum area to mobilize support for COVID-19 relief. An appeal was made for the relief of the people who were affected by pandemic in Patna. The team of the organization with the support of action aid India org. Doctors for you org. and many civil societies organization, individuals also given contribution to distributed Dry Ration kits, readymade food, sanitary napkins, sanitizer, masks, medicines, oxygen cylinder etc. among 5200 families in various wards of PMC..

Awareness and Relief during COVID-19 outbreaks

In May 2020, over all focus during Lockdown on COVID-19 response distribution in different ward of Patna, mitigating the risks of hunger and starvation and also

distribute Dignity Kit to adolescent girls and young women for their hygiene and dignity. Orienting children and communities on importance of lockdown and making them aware on its benefits despite all the odds they are facing. Promotion of Hand washing practice, wearing of masks, maintaining physical social distancing among children, women and other adult community members in most marginalized communities/ slums. Raise the different social, political and economic issues through you tube and Face book live streaming. Distribution of 2040 Dry Ration kits to 2040 families as a support for current needs in 14 wards of Patna Municipal Corporation.

Distribution of 600 dignity kit to adolescent girls and young urban women for their hygiene and dignity.

On demand D distribution of 388 food kits to families as a support for current needs in different wards of Patna Municipal Corporation.

Dry Ration kit for Corona positive family to relief and current need.

We had Telephonic Conversation with Children, women, other Community, School administration, PDS dealer, ULB representative, front line workers, service providers along with Hand washing practiced, wearing of masks, maintaining physical distancing is being promoted among children, women and other adult community members in most marginalized communities 'slums.

Liaison and advocacy with Public distribution system stakeholders for distribution of free ration (Wheat, Rice) to the people as announced by government, these **were services provided by us.**

Advocacy with district administration and Patna Municipal Corporation on allowing Civil Society Organizations and accept their support in reaching out to the marginalized children and communities with food materials etc.

16385 cooked food packets in Yarpur Mushari through ward councilor supported delivered through Swiggy & Zomato .initiatives taken by koshish which was contributed by I-PAC.

Leveraged 300 Food Baskets distributed by Koshish charitable trust supported by BSDMA & Reliance Foundation in Yarpur Dumkhana slum.

Leveraged 50 Food Baskets distributed by Koshish charitable trust with the support of Help Age India in R-Block for people settled on road side.

Cash support of Rs 1000/- to five family differently disable – Visually impaired couple, two widow women and two old age women) from individual donations/fund raising Kamla Nehru Nager Slum.

Leveraged 3 food baskets from AISF (Jan shakti Press) for two families living in Ketari Mohalla slum and one below the GPO Bridge.

Ground reporting of stories from field and sharing the same with relevant authorities.

Tracking misinformation by developing an assessment format for Patna and whole of Bihar state. Circulated it among the CSO partners for assessing the situation providing the details from their area.

Coordinating with government on getting passes for volunteers to support relief operations.

Tracking information on black marketing and sharing the same with relevant authorities. During the period of COVID-19 these essential contribution given by koshish.

Sanitation and Hygiene Kit Distribution

The novel corona virus has spread all over the world. Due to worldwide epidemic, the entire country is lock down since March. Girls and women were more affected during this condition. The women and girls who were living in the slum have not sufficient food to eat, they have not money to buy sanitary pad. They all use old cloths during menstruation. This condition was affecting their reproductive health. Action Aid association and Koshish Charitable trust jointly distributed 600 hundred hygiene kit to Young Urban Group under intervention area in Kamla Nehru Nagar and Adalatganj. This helped them to keep self- hygiene.

Advocacy with local urban body Ward councillor for PDS

During lockdown amid COVID-19 situation, people living in slum faced starvation due to food storage.

The slum belongs to most marginalized section. The major economic activities of women living there is daily labour such as construction worker, Domestic worker etc. looking at the worsening situation in the slum, young urban group members went to visit the ward councillor and discussed the same with him.

They demanded free ration distribution in their slum as it is done across the state of Bihar. The ward councillor of our area and it is your responsibility to support us. The ward councillor, told them to wait for some time till receive the free ration to distribute for our locality.

The women also asked ward councillor to help the households in their slums to get the ration cards. Women kept following up with ward councillor regularly for 3 days and after 3 days of regular follow up. After some days, ward councillor send staff from office they filled out their ration cards form. This data collected from through telecommunication of young urban group.

Strengthening the growth monitoring process: During the year, 10 AWCs will be visited to know status and functioning of ICDS, regular conduction of BMI and growth monitoring of children

The situation has been improved after our effort. Our team has been done a survey and analysis works in 10 AWCS in the working area. In the meeting, the activities of Anganwadi Sevika were explained in detail. In it was decided that Grammitra and members of gram parishad would be involved in the activities of BMI and growth monitoring every month. AWC was given arm scale and inch tape for BMI measurement and taught to measure BMI by team.

AWCs were inspired with our awareness programme. During the visit we found AWCs regular conduction of BMI and growth monitoring of children. The immunization and

nutritional service was now functioning slowly. Proper health counselling from AWCs has been starting now. Now more than 100 malnourished children (0-6) year received immunization and more than 250 children have access to quality midday meal from schools.

Anganwadi centers were visited by Grammitras (centre facilitators) and field facilitators in 10 target villages (Jamua, Bhurkunda, Peshraha, Dhabni, Gauroni, Dhirendrapuri, Bishanpur, Subhashpuri, Jor and Lalmatia) under Barhat block of Jamui district. Collected information from Anganwadi workers regarding regular operation of BMI and monitoring of children's development.

In the ten villages of the working area (Jor, Bhushanpuri, Jamua, Lalmatia, Bishanpur and Dhirendrapuri) only six Anganwadi centers are operational; children from the rest of the villages go to these centres. We visited all the centres where it was found that the enrolled children in the age group of 3-6 years are provided with pre-school education as well as cooked meals from the menu. Children from 6 months to 3 years are given THR as well as pregnant and lactating mothers. Under Anganwadi Centre. After that the information was also collected from the beneficiary. During this, people told that during the lock down, the Anganwadi was closed for the last two years; the children were not going to the Anganwadi. We have seen that when the Anganwadi remains open, the children are given cooked food and dry ration to some children. Routine conduct of BMI and monitoring of children's growth monitoring is not known what and how it occurs. Grammitra talked to the sevika to invite the Anganwadi worker to the next Gram parishad meeting. Inspired them that in the meeting you will tell the villagers about all these activities. In the next meeting, the activities of Anganwadi Sevika were explained in detail. In this meeting it was decided that Grammitra and members of gram parishad would be involved in the activities of BMI and growth monitoring every month. AWC was given arm scale and inch tape for BMI measurement and taught to measure BMI by team.

Capacity building on supporting health, nutrition services, tracking, planning and monitoring: Capacity building training will be organised in every quarter with 20 participants including 10 youth volunteers, health workers and ICDS staff. An external expert on the subject will be hired to facilitate the training on the process of tracking malnourished children, analysis of health schemes, and implementation of BMI.

health workers and ICDS staff.

An external expert on the subjects was involved in this training like Mr Rupesh, Mr Subhmurti, Ms Kalpana Shastri and Mr Saurabh and Mr Prabhakar. They all are expert on health, nutrition and ICDS scheme.

The participant has been oriented on local advocacy with Asha .we have tried to involve the CDPO Ms Shanju Kumari but those days she was not available but her representative was present.

During the visit she insures to facilitate AWCs to the better health nutrition services for children and young adolescent.

Orientation training for selected worker (Grammitra) for the project work was held on 22nd December 2021 at Khadigram, Jamui by Koshish Charitable Trust with the support of TDH. Importance of formation and function of Village Committee, Village level child development committee, Youth committee, redress of complaints etc. All staff is participated in the training programme. Ritwij Kumar welcomed all the participants and told them about the background of this training programme. He told that children and youth are the future of our society and nation. They need a new identity and awareness in the society. The government operates many public welfare schemes, knowing its provisions, and training will be provided on works, documentation. And how to check food and health related schemes. He told them that we would run education centres in ten villages.

Rupesh- Secretary of Koshish Charitable Trust said that emphasis was given on the formation of child marriage and essential schemes and committees.

They should develop relationship with the

During the Year we have organised 4 capacity building. Two on organisation and induction for orientation to staff and youth and two are organised for youths, volunteer's

community and encourage them to schemes like PDS, MDM, ICDS, maternity benefits, NRC etc.

Two days training was organized by koshish Charitable Trust on 27-28 December 2021 in which the process of Community Participation Vulnerability Measurement (CPVM) was explained in detail by resource person Prabhakar Kumar. In the target 10 villages of the project area, 10 Grammitras and one volunteer from each village were involved to find out the resources and problems presently available. During CPVM training, the facilitator was instructed to make social and hazard maps as well as visual maps. In this map, we have to keep marking everything along with marking the dangers and dangers, such as where in the settlement, drain, chapakal, pole, school, Anganwadi centre, temple, mosque, knowledge hall and tree by marking all these. Has been made a map. With the help of map, any person can easily reach the house marked through this map at any time.

Koshish Charitable Trust organized one day training on Sanitation, Health and Reproductive Health on 03 February 2022. The women members and youth of 40 village committees from 10 villages of the project intervention area participated. In this training Mr. Rupesh Secretary and Ritwij Kumar program manager, Koshish Charitable Trust, Shubhamurti ji, former president of BhoodanYagya Committee & president of shram bharti Khadigram There should be awareness of health and cleanliness at the village level. For this there is a need for practical changes at the level of self and family. All of you will take the initiative to lane what you will learn from here in your practice. Explaining in detail the seven dimensions of hand washing, he said that a good way to wash hands, steps to wash hands, which should be followed.

1. Wet hands with running clean and lukewarm water
- 2 . apply some soap
3. rub your palms away from the water
4. rub your fingers and thumbs and the skin between them
5. scratch your palm with your fingernail
6. rub the back of the hand
7. wash with running water

Women Pathologist Dr. Kalpana Shastri participated in this training as a recourse person. The Program contributes to “Policy and technical support provided to group leaders towards expanded gender-sensitive delivery of prevention, treatment and care interventions for Reproductive health, including integrated training and service delivery; wider service-provider networks; and strengthened laboratory capacities and better linkages with reproductive health services, such as those for sexual and reproductive health, maternal, newborn and child health, sexually transmitted infections, nutrition, respiratory care, neglected diseases and environmental health. The Program contributes to results related to strengthen as necessary and new evidence, products, technologies, interventions and delivery approaches of global and/or national relevance available to improve maternal, newborn, child and adolescent health, to promote active and healthy ageing, and to improve sexual and reproductive health. Reproductive health, with particular emphasis on ensuring equitable access to good/quality sexual and reproductive health services, particularly in areas of unmet need, and with respect for human rights as they relate to sexual and reproductive health.

On 23rd and 24th February, 2022, Koshish Charitable Trust organized a training programme for Village Committee members at Khadigram, Jamui. Project coordinator Ritwij told about village committee to spread awareness, vigilance committee for community monitoring and to facilitate grievance redressal. 35 participating village parishad members and youth participated in this two-day training programme. In the training, the formation of the village council was explained in detail, all the people living in the village are its members. Every month, the meeting of the village committee should be held on the scheduled date, in which issues and plans of public interest can be discussed. The responsibility of the community leader is to make people aware about the rights based schemes and the provisions of any new scheme launched by the government. Referring to the matter of Right to Food by PUCL in the Supreme Court in 2001, he said that the purpose behind registering the case was to request the Hon'ble Court that the Central and State Governments should stop starvation deaths at different places and Allow steps to be taken to end malnutrition. Universal implementation of schemes related to health, work and food in the country.

Kalpana Shastri and Prabhakar Kumar have trained youth to measure the BMI of children. Information was share to admit the highly malnourished children to Nutrition Rehabilitation centres. Youth has helped in measuring the BMI of children at Anganwadi centres.

Monthly Meeting of Young Urban group

Regular monthly meeting were held in all targeted slum area. In these meeting coordinators facilitated different certain issues and discussed on Gender. when the first meeting facilitated by coordinator in different targeted area first of all She asked one question that had any of you ever heard about Gender?

Everyone replied no. Then by expressing own view coordinator briefly discussed on this topic that gender is a socially constructed definition of women and men. What its impacts in our society? Gender roles in society means how were expected to act, speak, dress, groom

and conduct ourselves based upon our assigned sex. For example, girls and women are generally expected to dress in typically feminine ways and be polite, accommodating and nurturing. One of questions raised

Among yuw's? Why women have to always face humiliations in our society? Even today in our society, a girl killed as soon as feticide is done. We are the responsible for it because we didn't say stop it. We never try to understand what is going wrong with us. First, we have to reply to them who are forcing us to do. We have to change ourselves our mind our determination. in this regard we discussed in every meetings. YUW's, as a platform where young women given a stage to discussed their daily life issues which they face during day to day life. In every slum area have a eighteen to twenty Members with limited age group (18 to 30 years). Purpose of this group formation is to make strong bond with each other because mainly young women more enclose with their friend rather than her parents. Young women group is a platform to discuss their WASH, Health, education and protection issues. They sharing their information and knowledge about the development of their society for better preparedness among Young women. Usually, women are more sensitive in the context of their children and more spontaneous to keep their children safe from any manner of risk. The objective of this group is capacitated through the sharing of information and understanding about Health and WASH related issues and services with Govt. schemes. To increase their preparedness women Group gave a platform to those young urban women in the society who were marginalized.

Awareness building campaign against malnutrition- During the programme implementing period, total 5 village level awareness drive will be conducted in 10 villages of the project area to get every child completes immunization cycle to protect from malnutrition.

Two awareness programs were organized during this period with emphasis on children's health, malnutrition and vaccination in 10 villages.

The main focuses were to get every child completes immunization cycle to protect from malnutrition. The campaign has been widely support by AW staff including parent's children Youth and PRI members. The methodology of the campaign was in the way of door to door contacting and interface meeting. It has created awareness that maximum children have vaccinated that is AW, school going children etc.

The first program awareness rally was organized in the targeted village, in this program the members of Bal Parishad (Child Committee)-450, Yuva Parishad (Youth Committee)-100, Gram Parishad (Village Committee)- 50 and Village Child Development Committee- 50. Participated. The importance of malnutrition and vaccination was conveyed through awareness slogans and playing cards.

The second program was organized for awareness with 250 members of 10 village committees along with ANM and Anganwadi workers. There is less awareness in the tribal community. Anganwadi and health worker told that we come to Anganwadi center every Wednesday and Friday for vaccination. Vaccination is very important for all women and

children, it prevents many diseases. Even the claim of polio is not made to drink a lot, it will harm the children, and even a small child must be given the claim at home.

Aware on Adolescent from menstrual hygiene

Menstruation and menstrual practices are still creating very complication for socio cultural restrictions; it is a very complicated period during menstrual cycle for girls. Whenever conducting meeting with YUW group coordinator always given a matter to girls to speak out on problem they faced during period. Menstrual hygiene, a very important risk factor for reproductive when a girl come to teen, she faced many changes in her body. She never gets prepare before menstruation. While suddenly it happens, they feel very nervous, sometimes they could not understand what is happening in their body. While discussing on this topic among girls most of them feel ashamed to talk about this. Some girls from YUW group have attended three days capacity building program. Now they are able to speak about menstrual hygiene even. Girls who took training on gender, even now girls make their other group of girls aware of this topic. In these lockdown situation women group of community could not afford to buy sanitary napkin. They used old cloths during menstruation. May be very dangerous for their reproductive health.

Survey of Migrants labours

The whole country is lockdown since March Due to Covid-19 Pandemic. due to this period people had to faced lot of problem, its directly affected their economic life. In this period the cordinator started 9days campaign along with telephonic conversation with 103 migrants labour in this campaign the cordinator conduct online survey and individual information different type of issues has faced by them and filled the form of round There are several information asked to migrants.

Celebration of important days like (Global Action Month, World Environment Day, world Play Day and International Child Labour Day.)

World Environmental day (5th June,

The world environment day is celebrated on 5th June,2021. to raise global awareness to take positive environmental action to protect nature and the planet earth.

On World Environment Day on 5th of June 2022 youth and children's are moved door to door to raise the global issue and remind everyone on the planet to get involved in environment friendly activities. In this occasions Children, youth are as well as villagers come together to pledge towards building a greener planet.

During the month, campaign was organized through poster and drawing, speech, rally and plantation program.

Youth were planting papaya, Guava, mango and other plants to create a green corner in each 10 villages. So 120 plants has been planted in ten villages. A lot of enthusiasm was seen in the students and youths.

Students and youths were also coming out with slogans "Only one earth so plants more and more trees' ' and "Make the environment green and clean". The event was conducted successfully with wholehearted participation and awareness about plants.

Children have organized rally and raise slogan, display hand written playcard for save drinking water.

1. World play day (28th May)

On the eve of World play day on 27th may2021, we organize general lecture event by volunteer at every centre. And discussed, Play is most important for every childhood. But today Play are often one of the most neglected for the rights of children.

Children's were promoted and solidified children's holistic development, support, health and welfare. We discussed the value importance of play.

On the occasion of World play day on 28th may2021, children played and enjoy at every centre.

2. Child labour day (12th June)

On the occasion of World Day against Child Labour, we organized rally in every village. Youth, parents and villagers meeting has been organise on June 12. This activities creating awareness about the menace of child labour and human trafficking. The villagers, children as well as youth were motivated not to involve or engaged in labour, they have to go through study and get some knowledge. We have done awareness programme through meeting and given massage not to engage children into labour. We have given the massage against child labour in all targeted villages.

3. International Play day (3rd August) Planned and going to be organized on 3rd August.

We have already provided some playing materials like Ludo, carom board, football, skipping, chart papers and colours to the children to play.

"We will give message to all youths and children's is to take time to understand the value of play and learning through play. Children learn important developmental skills through play (cognitive, emotional, social and physical).

Red hand day

Expressed Voice In this regard Koshish charitable trust organized one day campaign on these issues on the call of international network taken response in Jamui and Patna on 12 February, 2022. More than 1500 children are participated from eleven centres of Gramshala and Gyanshala which are running by Koshish at village Dhirendrapuri, Lalmatiya, Dhabani, Garauni, Subhash puri, Jode, Pesraha, Bhurkunda Jamuanwan and vishanpur in Jamui district. Local youth people along with teachers were assembled in this programme.

Same day in Patna more than five hundreds children gathered from seven slum area child friendly education centre of Koshish, school and (ICDS) Aganbadi for finished the use of child soldiers through campaign raised voices.

During this occasion different region volunteers and teachers come forward and engaged in the campaign. Protester gathered In front of eleven centres of Gramshala & learning centres at Jamui and seven centre of in Patna at Adalatganj, kamla Nehru nagar, Gousnagar, East-lohanipur, yarpur, Ketaari muhalla, and R-block area.

The children and youth colored the palms and they expressed their opposition by printing their palms on the paper with red colour.

They were shouting slogans to Stop violence and provide study, sports and love. We children need rights. End of programme hand paintings have been submitted to koshish by each centres volunteers. They were pasted on wall.

Martyrdom day

On 30 January 1948, the Father of the Nation Mahatma Gandhi was assassinated at Birla House. Nathuram Godse fired three bullets at Gandhi's chest and stomach. It is said that Gandhi uttered the last words "Hey Ram". In such a situation, to pay respect to 'Bapu', Martyr's Day is celebrated every year on 30 January.

Children and villagers paid homage to Gandhiji by placing garlands of flowers on Gandhiji's photo at all the centres and celebrated to pay respect to Gandhiji. The Grammitra gave speeches at their respective centers and asked the children "Why were we celebrating the martyrdom of Gandhiji?"

World day against child labour on 12th June

On this day we conducted awareness program in 5 different slums and around 100 YUWs and Children participated. We organized drawing competition and essay writing

on the theme of child labour. The selected paintings were displayed on the social media platform and for maximum participation we gave sketch pens and other stationary items for free. We also hold a meeting with children to provide more information about the child labour

Formation of Nutrition Garden

To address the malnutrition and micronutrient deficiencies by consuming of freshly green vegetables, 100 families will be promoted to develop nutrition gardens in which organic and green vegetables are grown.

We have organized two days training for Nutrition Garden. As a Resource person Shri Gokul Yadav (Mahupur) participated in this training. He emphasis the essence of Nursery. Especially women groups are doing nursery, horticulture, plantation and organic vegetable production? She uses vegetable and fruits in self need as well as marketing.

In this regards, women can be take new initiative towards livelihood in the surrounding villages. All of you live in the village; and mostly have some empty land in front or behind the houses. In which you can develop as the nutrition garden.

In this training participant came to know about technical knowledge on Gardening, nutritional value as well as marketing. She has been skill how to grow from few support of water and uses of wasted water.

During the training period a model of kitchen Garden created by trainers at training centre for demonstration of participants.

End of training, Mr. Rupesh and Mr. Shubhamurti have provided seed support to the community to encourage their own resources for nutrition garden to be developed.

Impact of the training Awareness has been created among the family members and parents. In the working area, seed assistance has been provided to ten families in each village. Villagers are starting organic production of green vegetable. 100 families were encouraged to develop nutrition gardens, 10 papaya and one mango sapling and spinach (Palak), and vegetable seeds were provided to ten families in each village.

We organized training on mushroom cultivation for rich protein and nutritional. Parents group are cultivating musroom. We gave technical and material support.

Support Education & Guidance Centres-

10 Support education centers will be operational zed for the children under the age of 6-14 with support of 10 youth volunteers on a common land either provided by panchayat or community in 10 villages of Jamui block.

We started 10 education centre (Gramshala) for the children under the age of 6-14 with the help of volunteer (Grammitra) on a public place provided by community.

It was observed that the number of children in these villages is total 238 (male 118 and female 120), in which 50 percent children have never gone to school, the rest of children are enrolled but does not go to school.

The school was closed for a long time due to the Covid epidemic, children were deprived of education. As we know majority of villagers belongs to SC/ ST. Parents are not inclined towards education. Most of the survivors along with the family members also contribute in the work to collecting wood, Mahua and grazing animals in the forest.

In the Barhat block, community buildings, public land and Anganwadi centers were identified for the operation of education centers in the targeted ten villages of the project area, keeping in mind the safety of children, but for children below 6-14 years of age. Education Centre was started. It was difficult task to select land for education centre.

We have organized workshop for pedagogy for better teaching and learning materials. And last of workshop we have planed education calendar and teaching learning method. We are developed monitoring process of learning. Our team has been visited centre in weekly and organise monthly meeting with parents, children and volunteers.

Educational material, painting and graphic material as well as sports material have been provided in the education centre for the joyful and creative learning. Daily routine are maintain for regular prayer, yoga, educational program, creative learning activity, drawing and painting, song and dance, sports, children's meeting and celebrating important day etc. activity is being organized at each centre to make learning process.

Out of limit children of the centre we also take care to educate them and we provided extra classes.

WhatsApp group, enrolment format, daily attendance has been created in Google Drive for online monitoring and verification of daily work of volunteers for monitoring.

Establishment of children and youth groups

The children and youth groups will be formed with a total of 25 members in all 10 villages. They will be oriented in the first quarter of the project on the objectives and functioning of group.

A meeting was held for formation of children (Bal Parishad) and youth groups (Yuva Parishad) in 10 target villages. Objective of this committee made aware about the rights of children and education and nutrition, which helped in the development of children and youth. Every group have 15 to 25 members and total of ten villages members are 185 (male 95 & Female 90). The convener and president have also been elected. A meeting of the members of the committee held in every month and discussed the problem and solution of different issue like; right to education, educational career, malnutrition, child marriage, child rights, environment, enrolment of children in school, spreading of government schemes, campaign for corona needle, visit to Anganwadi centres, school and PDS shop etc.

COVID safety and vaccination awareness drive.

Koshish charitable trust organized a joint platform of likeminded several NGOs civil society's organization and individuals along with local bodies and govt. health agency to Building resilience to COVID through information dissemination on COVID appropriate behaviours and vaccination. This platform served the needy families & individuals which was not getting proper health treatment, like vaccination. But till date large numbers of marginalised community people are not interested to take vaccine Due to negative information about effect of vaccine after vaccination. In this regard koshish charitable trust leads and support to campaign which are contributed in the interest of vaccination camps. Volunteer of koshish charitable trust taken responsibilities to mobilized villagers and also support to universal vaccination with priority to those who are more vulnerable, to take vaccine for prevention of COVID. Through Vaccination camp several nearby villagers reached at camp to take vaccine does.

Community has been assisted in finding vaccination centres nearby to their villages. All adult have taken vaccination by our effort. All school going children whose age is minimum 12 has been also taken the vaccination of covid19 safety. For this our volunteer have been campaigning and contacting door to door and also in school.

Back to School Campaign-

Back to School Campaign in the project will aim to target those children who are either dropout or out of school children due to COVID 19.

100 members of Youth Committee (Yuva Parishad) seriously did this campaign through School Bharo Abhiyan.

Children were encouraged through slogans banners and door to door campaign. SMC members and teachers also awaked through campaign. Children in the targeted 10 village which were identified, who never enrolled in school and who dropped out during the corona pandemic. Various meetings were held with the parents of the children and thus our effort 77 children were admitted to the school Apart this 25 girls were given admission in Kasturba Gandhi Balika Vidyalaya Barhat Jamui during this period.

Capacity Building Training to Strengthen School Management Committee

School Management Committees play an important role among parents, children and school authorities and support in enrolment, retention, ensuring quality education and making schools better for children

During the visit of all the schools, it was found that the new committee has to be formed because due to Panchayat elections, the ward members were newly elected in the wards, who are important stakeholders of SMC, due to this the program was delayed.

Orientation workshop of school Management Committee was organized by koshish Charitable ..

Workshop started with introduction session. 35 members of the School Management Committee participated in the workshop. Describing the objectives of the workshop, facilitator Ritwij Kumar said that it is important for everyone to understand the work/duty/function of the school management committee. Today in this workshop the following were discussed according to act about the functions, duties and role of School Management Committee (SMC)-

- To inform about child rights in general and constructive ways to the people living in the neighborhood of the school, as well as the duties of the state government, local authority, school, parents, and guardians.
- The committee maintains regular and punctual attendance of teachers appointed in the school, regular meetings with parents and guardians and regularity in attendance regarding the child, ability to receive education, progress made in teaching and any other relevant make sure that the information is made known and the teacher does not do tutoring or private activities by the teachers.
- To ensure the enrolment and continuous attendance of all the boys and girls in the age group of 6-14 years in the neighborhood of the school.
- The violation of child rights, especially the cases related to physical and mental harassment of children, non-admission, violation of provisions related to providing free education will be brought to the notice of the local authority.
- Identifying the needs, will prepare the plan and will monitor the implementation of the provisions regarding education system made for the children who never take admission in the school in the age group of 6-14 years and drop out.
- Will monitor the implementation of mid-day meal in the school.
- To bring qualitative improvement in education by regularly reviewing the academic activities of the school.

According to Section 21 of the Right to Free and Compulsory Child Education Act, 2009 and Rule 3 and 4 of the State Rules, 2011, a School Management Committee (SMC) will be formed to increase the ownership and participation of the community in the school. The School Management Committee has two parts, the General Assembly and the Executive Committee.

Executive Committee of the School Management Committee :-

For smooth functioning of the committee, there will be a 16-member executive committee of the committee. Out of this, minimum three-fourth members shall be from parents or guardians and maximum 5 members shall be ex-officio/nominated other persons. 50 percent of the members of the executive committee will be women i.e. at least 8 women, whose office bearers and members will be elected/nomination according to rule 12.

There is maximum 15-member executive committee of the committee to run the functions of the school management committee smoothly. Rachna thanked all the participants and today's workshop was concluded.

Establishment of VCDC (Village Child Development Committee)

Village level child development committee will consist of 20 women members including one representative from ICDS, SMC, NRHM and PRI.

Villages Child Development Committee was formed in targeted ten villages, in which each committee has 15 to 20 members. Total members are 178 (Male 40 & Female 138) The purpose of group formation is to know and be sensitive to the Right to education, health and nutrition.

Included in the right of existence under the right of the child. People should understand that what are the obstacles in front of it? What action should be taken at the family level, community level and

government level to eliminate these barriers so that these rights can be protected. The matter of rights of children has been written in the Indian Constitution and it has been accepted in the United Nations Convention on the Rights of Children in 1989, on which 192 countries have given their approval, which includes India.

This right is made available by the government through some schemes and programs, but in this the first responsibility lies with the family, from which the rights should be provided to the child directly.

Some of the barriers to entitlement are as follows – filth in the community, lack of balanced food for children, lack of cleanliness, lack of proper implementation of VHSND at Anganwadi centre, etc. In order to eliminate such barriers, families, What action should be taken at the level of the community and the government, there is a need to discuss openly what action should be taken. In this way, the obstacle can be removed with the cooperation of all of us.

Alliance & Synergy with District Stakeholders- A district network alliance will be developed and formed with other child rights organisations, campaigns working on nutrition and RTE act, officials from ICDS and education.

A meeting for alliance and synergy with district stakeholders was organized by Koshish Charitable supported by TDH at Khadigram, Jamui . In this program, representatives of 5 different organizations ward members, ward panch and local officials along with different service delivery agency, school teachers, village committee, youth committee, child development committee members, a total of 40 participants were present. The meeting started with introduction session. The following were discussed. ICDS workers told that the number of beneficiaries has already been reduced, due to which we would have suffered a lot. Allotment was not given to us during lock down; amount was transferred directly to the beneficiary through DBTL.

Education networks and activists told that there is a lot of flaws in the new education policy in this regard, we all have to come forward and talk to the government together and tell them ensure the entitlements.

During the lock down, the mid-day meal was not cooked in the school; its amount was directly transferred to the children / beneficiary through DBTL. Whereas the government should have arranged community kitchens during the pandemic.

Relief provided for CORONA Positive Affected like famine month of June 100 people from Kamla Nehru Nagar slum of Patna where tested for COVID-19 in which 11 people tested positive. The 11 identified people, some of them were the only member of the family. All of the affected people were shifted to quarantine centre located in Phulwari for the treatment. Instead of sealing the whole slum the Patna administration only sealed the houses of affected people with the help of bamboo. After that incidence the nearby families of the affected families started discriminating them and one more problem which family has to cope up with hunger, and financial crisis. The people who were daily wage workers, especially domestic household

workers were forced to stay at home as the area was locked and the owner of the

houses, they use to work said them not to come due to spread of the infection. No help from any governmental institutions were provided and families of the infected persons were completely isolated from the society. One of the victims among those 11 people was Rani Kumari who is 18 years of age shouted for help from the organization. We also monitor the condition in which the affected person has been kept in the hospital. We made sure they get the proper facilities at the Quarantine centre. We also tried to motivate them in the quarantine period and tell them not to panic.

The livelihood of those affected 11 people was street vendor, domestic worker and daily wage laborers. Initially these people were troubled due to lockdown and this new problem has increased their misery. All those 11 people were distributed essential grocery by Koshish Charitable Trust with the help of Action Aid. During the distribution proper norms of physical distancing and other standards were strictly followed.

Press conference on International domestic workers day

on the occasion of international domestic workers day a press conference jointly organised by Koshish Charitable trust and Bihar domestic workers union on 16th June 2022 at Kedar Bhawan Patna. On the issues of domestic workers to the issues related to domestic worker and make the government authorities accountable for the situation and also to make their voices heard by the authorities and demands of domestic worker is fulfilled. Grievance letter (was jointly prepared by Koshish Charitable Trust Patna, and domestic workers Union Patna, were briefed by Rupesh Kumar secretary of Koshish Charitable Trust Patna, sister Lima state

coordinator of Domestic workers union and vice president of AITUC Bihar Gaznafar nawab.

Grievance letter was communicated to the public media and government through press release with Public demand letter which from various organizations of Bihar on the occasion of International Domestic Workers' Day through

YUWs participated in National condolence day by Right to food campaign

Right to food campaign organized National condolence day to express sorrow deaths during the Corona epidemic to government neglect during lockdown, women of all groups In various district of Patna Bihar while condemning the death of Corona disease, hunger death of migrant labours, women, children, Sick domestic workers due to negligence of the government during the lockdown. The Right to food campaign Bihar conducted peacefully condolence programm. Through these activities they

performed mourning day in their slums .lockdown carried out by the government in a chaotic manner and the circumstances arising thereafter demonstrated against the government's failures. At the same time, a 2-minute silence was observed to mourn for the workers, women, children, etc. who lost their lives as a result of incentives decisions of the government.

Supporting Dry Ration Kits to vulnerable families

Along with several organizations contribution one other organization like i-probono came forward for needy families to support them.

But there were some obstacle due to technical problems of fund transfer in FCR account of SBI with Koshish, we were not able to provide materials on that time.

When clearance of FCR account trouble, first phase of lockdown had been gone and second phase of lockdown announced by government, in these pandemic situation people were getting two fold difficulties one was lockdown and second was flood situation specially in Khagadia regarding this issues vulnerable families of marginalized community were worried that how to save their life.

During this period difficult life style of people was very terrible, so that by the support of i-probono Koshish charitable trust started distribution of Dry Ration kits (Rice, Wheat, pulses, edible oil, milk powder masks, sanitizers etc.)for one month among slum dwellers, domestic workers, informal sector workers, homeless persons and migrant worker families which are staying in slum area, streets, footpath and useless govt. or private land in Patna city and other districts of Bihar like khagaria, Gaya, Bhojpur.

We provided Dry Ration kits for one month within very needy vulnerable families of marginalized community in khagaria two (200) hundreds families, Gaya three (300) hundred families, Bhojpur two (200) hundred families, and Patna five (500) hundred families, total twelve hundreds beneficiaries got in

Then after Second lot of Dry Ration kits also distributed in Khagaria (200) within two hundreds families, in Gaya (200) two hundreds families, Bhojpur (200) and Patna (250) two hundred fifty families. , total eight hundred fifty beneficiaries got in second lot of Ration Kits from koshish charitable trust.

Community kitchen provided cooked meals for homeless and cooked food provided for COVID patient quarantine families.

Koshish charitable trust setup a Community kitchen for three month at Ashok Raj path nearby Patna University to provide regular meal to homeless people along with cooked food provided to COVID patients and his / her families who were living under home quarantine. About one hundred unorganized sector worker who are living in Patna as homeless which were unable to get any kinds of food. In this regard Koshish charitable trust serving foods on per day basis as morning and evening at community kitchen centre. In this centre every day more than 200 hundreds people were getting lunch or dinner.

Koshish charitable trust circulated mobile numbers for needy people & families which were fighting with COVID to serve the needy families & individuals which are not getting proper foods. Koshish charitable trust circulated the official mobile number and for this support volunteers deputed. Volunteer received hundreds of request call to help them. In this regard about two hundred to two hundred fifty COVID patient and his/her families got per day cooked food packets. Along with food by the help of some individuals and org. arranged 46 oxygen cylinders for serious patient and more than 8000 masks and about two thousands sanitizer also provided to needy families in Patna and others districts.

Providing cooked meals to migrants and informal workers

Lot of migrants and informal sector workers Who were coming from out of Bihar state or out of district within state by special train they were facing trouble to get food due to some people had been lost purchasing capacities to get something for eat and sum people were hungers due to sell stall of food at Railway station or out of station were generally closed. So that many people told that they hunger since two days or they were hunger since traveling times. Koshish charitable trust volunteers on the behalf of org. provided cooked

food and mineral water in four Railway station like Rajendra nagar terminal, Patna Railway station JN, Danapur Railway station JN. And Patliputra Railway station JN. In Patna four thousands fifty (4050) passengers which are belong to migrant and informal sector worker were got cooked meals packets and mineral water.

Arranged oxygen cylinder, masks and sanitizers

Koshish charitable trust circulated mobile numbers to needy people & families which were fighting with COVID the needy families & individuals which are not getting proper health treatment, medicine, oxygen cylinder, food, water, masks, sanitizers. Then after on official mobile number through organization we received hundreds of request call for help them.

Along with Ration kits by the koshish arranged 46 oxygen cylinders for serious patient and more than 8000 masks and two thousands sanitizer also provided to needy families in Patna and others districts.

Care line established

Koshish contributed essential services by the support of ford foundation since September 2021.

koshish charitable trust established care line which is a medical assistance for health related needy urban poor families. Care line working in 24x7 for those who are in need of credible and verified information & support. On this platform several senior doctors have been given consent to support the care line without any consultancy fees, they can serve to patient who have not capacity to pay for treatment. Care line trying to provide some free or low cost medicine like generic medicine. Care line also tries to maintain coordination with health related needy people between several govt. health agencies. It's worked as a Referrals services.

It functions through use of digital medium and tale-consultations. This centre facilitated by 3 volunteers who are available for 8 hours shift on a rotational basis. We have been also rope in doctors for tale consultations. The services offered through the helpline our facilitator circulating widely on social media platforms and on various websites. Care line also created a permanent outdoor health check-up centre, on per day basis various type of patient turned at centre for proper treatment or consultation.

The application (by call) of the people at the Care line have been communicating with the team through data, as needed, then after they gets appropriate assistance, clinical health (Doctors suggestion online basis), Medical aid (generic and Aayurvedic medicine & oxygen), cooked food and sanitation kits, protein package, counseling, etc.

The callers connected with credible physician and concern service providers. These are the main function and goals of care line. In this regard koshish charitable trust has given responsibility to Dr. Anil kumar singh to co-ordinate the care line on 24 hours in every day.

Activation, Improvement and Facilitation of Referral Services

Activation and improvement of the Health care facility are essential to save lives and ensure quality and a continuum of care. In this regard targeted areas of slums in Patna like Adalatganj, ketari muhlla, Gausnagar, R.block, behind high court Patna, kamala Nehru nagar, yarpur Domkhana, east lohanipur, Shah Gaddi , etc. koshish charitable trust has been taken initiatives to contribute women & children which are facing maternity, malnutrition and other health issues through ASHA, ANM ,Aaganwari (ICDS) centre, Urban PHC and sub divisional hospital to ensure the institutional delivery and need based attachment to women and malnourished children with NRC, Aaganwari Kendra, ASHA, PHC, sub-PHC and referral sub divisional hospital. So that referral services through community level FLW for accessing the NRC (Nutrition Rehabilitation Centre) services and also institutional maternity services. Our medical team always visiting in target areas and monitoring the

growth of children & pregnant women and mapping weight and height, so that We providing Effective referral systems through community on the basis of Mahila Aarogya samiti org. Activities. Hundreds of beneficiaries attached with primary health centre, sub health centre and sub divisional referral hospital.

Formation and Function of Mahila Arogya Samiti

Organization have taken initiatives to move in slum area for awareness and constituted Mahila Aarogya samiti on the basis of NHM aims & object.

According to NHM structural guideline of mahila Aarogya committee coverage area are 50 to 100 household's families within each slum area and among this families form a group of women as a members and within group members selected to women activist from each targeted areas. ASHA activist and Aaganbari Kendra sevika also were selected as a member in working committee. Each committee has been selected 10 to 15 working committee member and ASHA activist is a secretary of said committee. In this regard through the campaign and after several round meeting mahila Aarogya samiti came in picture. Mahila Aarogya samiti (Committee) running in 10 different slum area of Patna like Lohanipur, Adalatganj, Gousnagar, kamala Neharu nagar, ketari muhalla, R block, behind high court, yarpur (domkhana) and Haj bhawan.

This committee continuous serving help to ASHA and Aaganbari centre, ANM and also promote referral services through ASHA, ANM, and Aaganbari Kendra, samiti members always moves in community and organized meetings with group members of MAS and through meeting they listing about pregnancy issues, nutrition for malnourished children & pregnant women mahila Aarogya samiti also care about adolescent girls for Reproductive health etc. according to listed cases we linking with urban PHC and also coordinate with grassroots level health agencies to register this case and accordingly provisions to take proper care.

Rotation camp for Ayurvedic immunity Booster to children:

Under the guide line of Dr, Anil kumar singh koshish charitable trust decided to provide immunity drop for children which are living in slum areas. So that on suggestion of Dr. Anil kumar singh organized camp to provide "Suvarnaprashan Drops" (Ayurvedic Immunity Booster Drops) for children in the age group of 1 month to 16 years. This drop will help in fighting COVID.

Many people coming from outside of Bihar state during festival period or even after festival. In such a situation the possibility can be spread COVID disease. So we need to be prepared. In this situation The Immunity drop helpful to the children which increase the immunity.

As we know suvarnaprashana is also known It is one of the essential rituals described in Ayurveda for development of growth, memory and immunity in children. a natural, time tested method to improve overall health of children practiced for more than 5000 years and also registered under **Health & Family Welfare Services, Govt. of India.**

Poshan Abhiyan (Nutrition Campaign) Supplementary foods provided to slum dwellers children.

To create immunity among children Koshish charitable trust was make plan to provide fifteen days (nutritional food) supplementary food for children of slum areas which were enrolled centre like Ten (10) from Aaganbari Kendra and three (3) from creative learning platform of koshish. Before beginning of this program we organized meeting with parents of children for his/her consent. After fruitful consent of parents through these centers before the distribution of nutrition food we listed the weight and heights of entire children then after we distributed nutritional foods among children. After this consumption of nutrition food once again we mapped weight and height and compared with previous weight- height then after we got positive result.

Building resilience to COVID through information dissemination on COVID appropriate behaviors and vaccination

During the lockdown period koshish charitable trust organized a joint platform of likeminded several INGO's, UN related org. civil society's organization individuals along with local bodies and govt. health agency to Building resilience to COVID through information dissemination on COVID appropriate behaviours and vaccination. This platform served the needy families & individuals which was not getting proper health treatment, like vaccination. But till date large numbers of marginalised community people are not interested to take vaccine Due to negative information about effect of vaccine after vaccination. In this regard koshish charitable trust leads and support to any campaign which are contributed in the interest of vaccination camps. Volunteer of koshish charitable trust taken responsibilities to mobilized slum dwellers and also support to universal vaccination with priority to those who are more vulnerable, to take vaccine for prevention of COVID. Through Vaccination camp several homeless and slum dwellers reached at camp to take vaccine does.

WIDE SAMPLE SURVEY AND STUDY CONDUCTED

Participation in the district level NGO coordination networks

A wide sample survey and study jointly conducted by koshish on the issues that what are services which is provided by deferent health related govt. agencies during the previous lock down to till now situation of the study period. What about reach of people in primary health and nutrition services which are running by government. Survey conducted in 18 districts from 9 commissionairy of Bihar and within district two Blocks selected for survey & study. Within District and selected Blocks sample survey study conducted as with 36 primary health centre and 72 sub centre of primary health, 144 health's Aagan Wadi Centre, 18 nutrition centers, 144 ASHA and 144 Beneficiaries. Sample survey revealed facts on running schemes of government in the field of primary health and nutrition services. After study issues came on picture that govt. Implementing Agencies which has responsibilities to implement the schemes on grass root level are not satisfactory and something big gaps illustrated after study. Studies draw many Question marks on implementation of running services for people. Through this gaps network demanding with government to full fill the gaps of scheme and how to maintain reach of people.

Organizing Creative learning platforms for children:

As we know that due to lockdown entire school had been closed. So this reason learning process of children within slum areas in Patna are very much affected. Children lost his /her enquired knowledge.

So that it's an argent task to recover the previous knowledge and it shall be advance. In this regard, joint initiative taken by Learning Imitative for India fellowship program and koshish charitable trust to teach them through exercising various new tools of teaching learning materials.

In these aspects started three centers which are covered East Lohanipur, Kamla Nehru Nagar and Adalatganj. Each centre has above 50 children with trained volunteer as a teacher. This program especially runs for out of school children and child labour itself.

Under the slogan of "**Suno aur Sikho**" it is a joint effort of the Koshish and LIFI to create positive world outlook vision in the mind of every child. We created centered for practical knowledge through Digital platform.

Social mobilization

Koshish as a social Organization have been taken initiating to mobilize people and other stake holder organizational representatives on people oriented issues in city and particular in slum areas for awareness and to constitute a common platform to ensure the unity and joint initiatives to help the people which are facing diversities of basic need.

In this regard several times we organized meeting with likeminded Representatives CBO

representatives, Civil Societies org .representatives. Through the campaign and after several round meeting we created popular platform on many basic agenda of civil societies for common goal.

We also moved in slum areas to reconstruct CBOs of slum dwellers'. Community based organization came in picture. These Committee running in 10 different slum area of Patna like Lohanipur, Adalatganj, Gousnagar, kamala Neharu nagar, ketari muhalla, R block, behind high court, yarpur (domkhana) and Haj Bhawan.

This committee continuous helping and monitoring the services of health and other schemes. We coordinating with these agencies to ensure reach of people.

Shelter for homeless people

Since long time's koshish were demanding to be built shelter for working homeless people in Patna and out of Patna in other city of the state. Lot of these urban homeless people staying or sleeping under the roof of public or privet places and under the open sky. Government should be take initiatives to create maximum shelter for homeless.

In this regard a delegation of koshish team meets with chief minister Mr.Nitish kumar and given memorandum for these issues. Then chief minister said to delegation that government will certainly take serious action to build shelter for homeless who will be separate of men & women. In this way chief minister instructed organization to created a first module shelter to run and look upon its result. Then after koshish charitable trust agreed to take this challenges to show how to conduct the any one centre which will provide by govt.

In this regard opportunities given by urban development department of state government through PMC. An agreement have been sign between koshish and Patna municipal corporation (PMC) to conduct and managed the newly built shelter at Ashok Raj path nearby Patna University. Which are a first module this shelter has capacity to accommodate fifty persons with separate bath& toilet, kitchen and office for management. This Rain Basera Shelter has been running since four years ago and providing lunch & Dinner to staying

People on nonprofit cost fifteen rupees per head.

Action against Child marriage

Views of traditional system of child marriage inherent in the minds of several people which are belong to weaker sections, due to socio economical and gender outlook situation. Regarding childhood age if they can get marriage that mean parents feel burden free. In these circumstances koshish by the help of community members several times raised that issue through campaign. In the end of this year we found a case of child marriage. This happened in Adalatganj slum area, parents of a fourteen to fifteen years age group girl they were want to give marriage with a man, in this regard our activist intervenes by the help of CBOs members and local administration and we legally protest this marriage ceremony. then after marriage programme had been postponed.

Community based digital centre

Community based digital services providing by koshish charitable trust. This centre running in Adalatganj nearby Janshakti presses. Through this centre we have been introduced a DCA courses for slum dwellers children. Out of this course giving free services to weaker section to providing support in need based document like Adhar card, filling any type of application, and any other required digital informative document which can help to needy people on easygoing process.

Achievements/ Output/ Result of the programme

There are 5 Anganwadi Centres and 1 Mini Anganwadi Centre in 10 villages of the worjing area.

Transparency was adopted in the selection of the beneficiary after building a good community relationship with the Anganwadi worker. In the meeting of the village committee, those who are

Most needy were given priority.

After adopting this process, we have been able to connect more than 130 children and women with Anganwadi so far.

We started work in the new area. The entire working area is dalit and tribal dominated.

More than 250 youth and children participated in the Back to School campaign across the region.

Village based committees have been constituted in all target villages. It has been formed for these purposes. In the last few days, we have tried to put more emphasis on behavioural change. Each month's meeting focuses on different issues. But they are not fully involved due to lack of awareness and confidence.

250 children were connected through monitoring to ensure that malnourished children get SNPs in Anganwadi centres and regular mid-day meals in schools. Through the Anganwadi centre, it was said that malnourished children should be identified and referred to NRC. They give special attention to children and help them to overcome malnutrition.

Nutritional garden has been set up for 100 families in the targeted village. Ten papayas, one mango and guava saplings were given to all the families. Village committee members planted saplings on the occasion of World Environment Day.

Through Anganwadi worker and ASHA worker talks with adolescent girls to improve their reproductive health and regular diet and we organized training for them asking for iron folic acid tablets from ASHA worker for anemia was asked to do.

Those children who were never enrolled in school and dropped out of school during the COVID epidemic were identified in the targeted village. Meetings with the parents of the children several times were prompted, teach them appropriate age. 77 children (35 boys and 42 girl) were enrolled in the school and 25 girls are enrolled in Kasturba Gandhi Balika Vidyalaya, Barhat Jamui.

Most of the members of the school management committee did not have much information, they told that the register comes at home, we sign it,

After the effort a lot of information was received from the meeting and training.

The friendly relation is build with children, teachers and parents. They involve in back to school campaign.

The Village Child Development Committee constituted at the village level is taking the issue of education and child rights seriously.

Children are raised the issue of education, teacher, TLM, drinking water, mead day meal, and immunization.

Under the schemes operated under the National Food Security Act 2013, all women and children should get rights under Anganwadi, NRC, PDS, Mead day meal a demand letter will be given at the district level. Letter has been given to district education officer and administration to ensure school open, follow routine time and re ennoblement of children.

In the beginning period it was a difficult task to convince and building trust is a challenge to parents, but after our efforts they came to know about importance of child rights and education. Then After starting the work people fully cooperate and involve in this work. Due to gramshala (support education centre) activity, out of our expectation about 600 children joined and enjoy.

Regarding this efforts friendly relation build with many service delivery stockholder and services are improve for community.

Parents, guardians and youth are regularly attached with programme through meetings and trainings.

They raise the local and development issue.

Kitchen garden program is gradually increasing.

As we see negative mindset still inherent in the mind of people. Youngest and adolescent girls are still feeling binding to move their surrounding area.

We have also child safeguarding mechanisms at field and office level.

A focal person in office and field level also responsible to tackle the problem of children.

We organized a training programme with staff and volunteers to follow the safeguard policy strictly. TDH team also helps to provide the online training. Mr Salim has given Details description about policy and experiences.

Key staffs have been complete certificate course regarding child safeguard by TDH portal. After training it is follows by them. Children are also given some points about physically and mentally harassment.

For awareness we display some points about child safeguarding on each and every centres through Banners and posters.

Further no any such type of case observed in the field area.

Consultative participation: where adults seek children's views in order to build knowledge and understanding of their lives and experience. It is often characterized by being: adult initiated; adult led and managed; lacking any possibility for children to influence outcomes.

Collaborative participation: where there is a greater degree of partnership between adults and children with the opportunity for active engagement at any stage of decision, initiative, project or service.

Child led participation: where children and young people have space and opportunity to initiate activities and advocate for themselves on issues affecting them. It is often characterized by: the issues of concern being identified by children themselves; adults serving as facilitators rather than leaders; children controlling the process.

Thanking you form report preparation team of Koshish Charitable Trust.
